

Keyboards by Beverly Kinnison Flier

The Key is in the Teaching, Teaching that Unlocks
the Joy of Learning and Playing Music.

Now Learn Keyboards and Enjoy it!

**Have you always wanted to play piano but
didn't think you had enough talent to learn?**

**Or, have you thought it would just take too long
to master? Fortunately, there is an alternative.**

No Talent Necessary

Just show up with your desire to learn, I'll provide the method that will enable you to develop the hidden talent that you thought you never had.

Just 15 Minutes a day

If you can make 15 minutes available in your day, then you too can unlock the enjoyment of this instrument. Learn piano and keyboards playing pieces you like! You will find your self, motivated to play, practice, and break through new challenges.

Instruction that Supports You

Reaching Your Goals

When you enjoy playing and practicing you will experience the satisfaction being able to share it with others.

Easier Than You Think

What stops most people from learning piano or any instrument, is the perception that it is too hard. Fortunately, In the hands of a good instructor, music can be fun, as it was intended to be. And I bring that out in my instruction method for my students.

Unlock Your Creativity and Expression

Would you like the keys to unlock the enjoyment of playing the music that has moved your soul? Now you can do just that. I can show you the way to the creativity and expression that music so aptly captures.

If you would like to unlock the creativity and musical potential in you, then I would like to discuss the possibilities and together, map out a plan to bring your dreams to life.

The Key is in the Teaching, Teaching that Unlocks the Joy of Learning and Playing Music.

Custom Teaching

In your first lesson we will start with your goals and assess your current levels of ability and map out a course tailored around what you would like to accomplish. This learning system is designed to support you.

Music Theory and Technique

In order to help my students develop, I strategically incorporate select music theory and technique at key moments to enable them to advance their knowledge and insight in how the music works.

Transcription & Arrangements

I make easy to play arrangements of music so you can learn the pieces that you always wanted to play. With my transcription skills, I can take music from CD or hand written notes to create publication ready sheet music.

So, if you have you ever thought of songs or melodies that you wished you could get down on paper, now you can. You don't have to lose that creative moment. Now you can capture that piece and keep it for ever.

It all Started at Four years of Age

Beverly Kinnison started her music career at age 4! Beverly learned to read music and play music before learning to read and write.

At 12 years of age she was finally able to pursue her dream of playing the organ by virtue of the fact that she could then reach the foot pedals. After high school Beverly pursued her love for Baroque music and attended the San Francisco Conservatory of Music focusing on organ and harpsichord.

Today, Beverly performs professionally with the Baroque Sinfonia of Santa Rosa and is music director and organist at St. John's Episcopal Church. Beverly also composes her own music and transcribes pieces for her clients as well as teaches keyboards to the next generation of new talent.
